

# The Most Circuit Races (2001 ~ Jun. 2018)

At the end of this year, 18 circuits will be completed. How many races do you think people have run races over the past 17 ½ years? Below is a chart of SRRC races run from 2001 to, but not including, the 4<sup>th</sup> of July, 2018. Each star represents one SRRC race over the past 17 ½ years. **The number in parentheses represents circuit championships.** This is not a perfect list. Some records from 2004 are incomplete and a few times I did not complete the last race of the year, so, if anything, the list could be slightly short. I will include both this month's and next month's circuit in the September newsletter.
