

# SRRC Circuit: The Most Circuit Races (2001~July 2017)

At the end of this year, 17 circuits will be completed. How many races do you think people have run races over the past 16½ years? Below is a chart of SRRC races run from 2001 to, but not including, the Sand Dollar Shuffle, 2017. Each star represents one SRRC race over the past 16½ years. **The number in parentheses represents circuit championships.** This is not a perfect list. Some records from 2004 are incomplete and a few times I did not complete the last race of the year, so, if anything, the list could be slightly short. I will include both this month's and next month's circuit in the October newsletter.
